

Kitchen Display

Boosts Your Kitchen Staff's Productivity

What's Kitchen Display

Aldelo Express Kitchen Display System (KDS) supports Traditional, Consolidated and Expeditor modes. It also has configurations that allows for controlling the number of orders displayed on-screen.

Aldelo Express Kitchen Display System (KDS) enables you to turn your iPad into an efficient Kitchen Display System without all the wires, bump bars, and control units. Best of all, installation is a breeze and costs a fraction of a legacy KDS system.

KDS # 5 2019-07-31 10:00 PM
