

ALDELO EXPRESS

and **MOSA** 

Aldelo Announces Integration with the Uber Eats Platform

Leading Meal Delivery Service Platform Expands Options for Aldelo Express Users

The new POS integration supports a variety of automated features and benefits, including:

- Automatic synchronization of Aldelo Express & Uber Eats digital menus / order data
- Instant pushing of scheduled or on-demand Aldelo Express menu changes to orders with Uber Eats, including the automatic removal of “out of stock” menu items
- Sending online orders with Uber Eats directly to kitchen printers and digital Kitchen Display Systems (KDS)
- Opening a cashier and payment tender for orders with Uber Eats in Aldelo Express
- Clearly identifying orders with Uber Eats, order IDs, available driver Info, and automatic closing of tickets for orders with Uber Eats
