COUNTER RETAIL POS

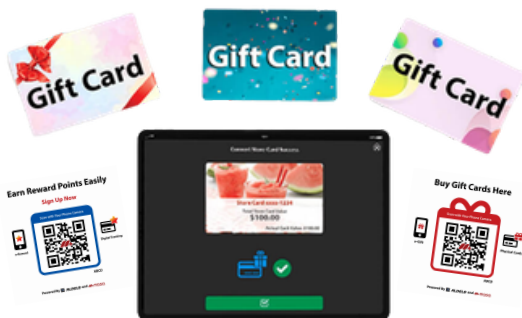

Efficient Item Tracking and Orders on iOS and Android

Aldelo Express's fast and easy ordering system allows retail operators to scan items using the iPads built in camera, bluetooth barcode scanners, or by searching in the point-of-sale using keywords. With real-time inventory countdown, temporary item markdowns, interactive customer display screens, and more, Aldelo Express Cloud Point-of-Sale for Retail supports seamless purchase experiences for staff and customers alike.

Transparent Purchases and Seamless Digital Payments

- iPad-based Aldelo Express Customer Display Screens support visual order and payment confirmations and digital promotions with images and videos
- Use iPads, Android Tablets, Android Terminals, and/or all-in-one Aldelo Mobile POS devices
- Native Inventory Countdown feature displays real-time inventory values on POS terminals
- Aldelo Express Advanced Pricing Module supports short-term item markdowns
- Supports multi-store physical and digital Masa+ Gift Cards and Loyalty / Rewards programs

Ideal for gift shops, mall kiosks, pop-up stores, bodegas, convenience stores, salons, clothing stores, mobile contractors, and more!
